

App Developer Candidate

Interview and Post Meeting Discussion Questions

Interview Questions:

1. How long have you / your team been building apps?
2. Does your team build for iOS, Android, or both?
3. Does your team build natively, or use a cross-platform solution like Titanium or PhoneGap?
4. Are the developers who will be working on the day-to-day aspects of this project based locally?
5. Tell me about a mobile app you've built.
6. Will you be creating the designs (visual look, user flow) for this project?
7. If our app needs a database, will you be able to build it?
8. What does your process look like? Will we have weekly, bi-weekly checkins? How do you show us you're hitting milestones?
9. Given our timeline, do you have the bandwidth to tackle our project?

Post Meeting Discussion Questions:

1. How responsive was this developer? Did they get back to you right away after you reached out to them, or did you play phone/email tag?
2. During your meeting, how engaged was the developer? Did they seem like they wanted to work on your project?
3. Did the developer ask detailed, relevant questions about your project?
4. Was the developer able to answer your questions in a way that was comprehensive and easy to understand?
5. Most importantly, do you feel that this is a giving or taking developer? Do you feel that they take pride in their work and want your project to succeed?
